- Information about nearby self defense workshop and training centers.

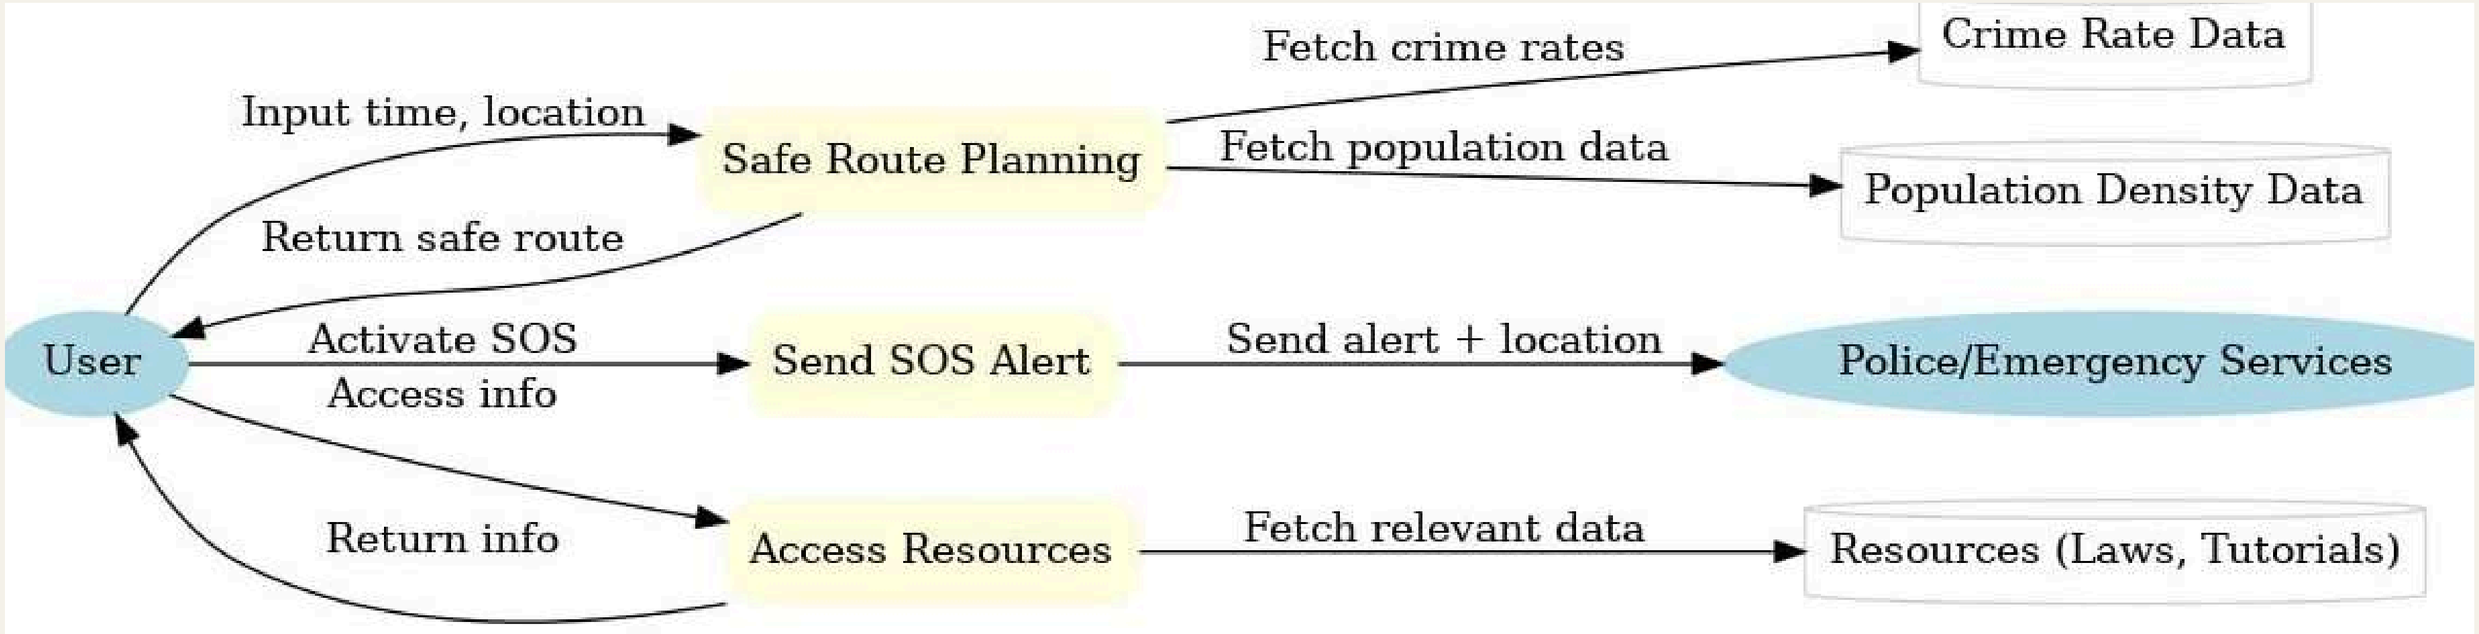
24/7 HELPLINE AND COUNSELING

Support Provided :

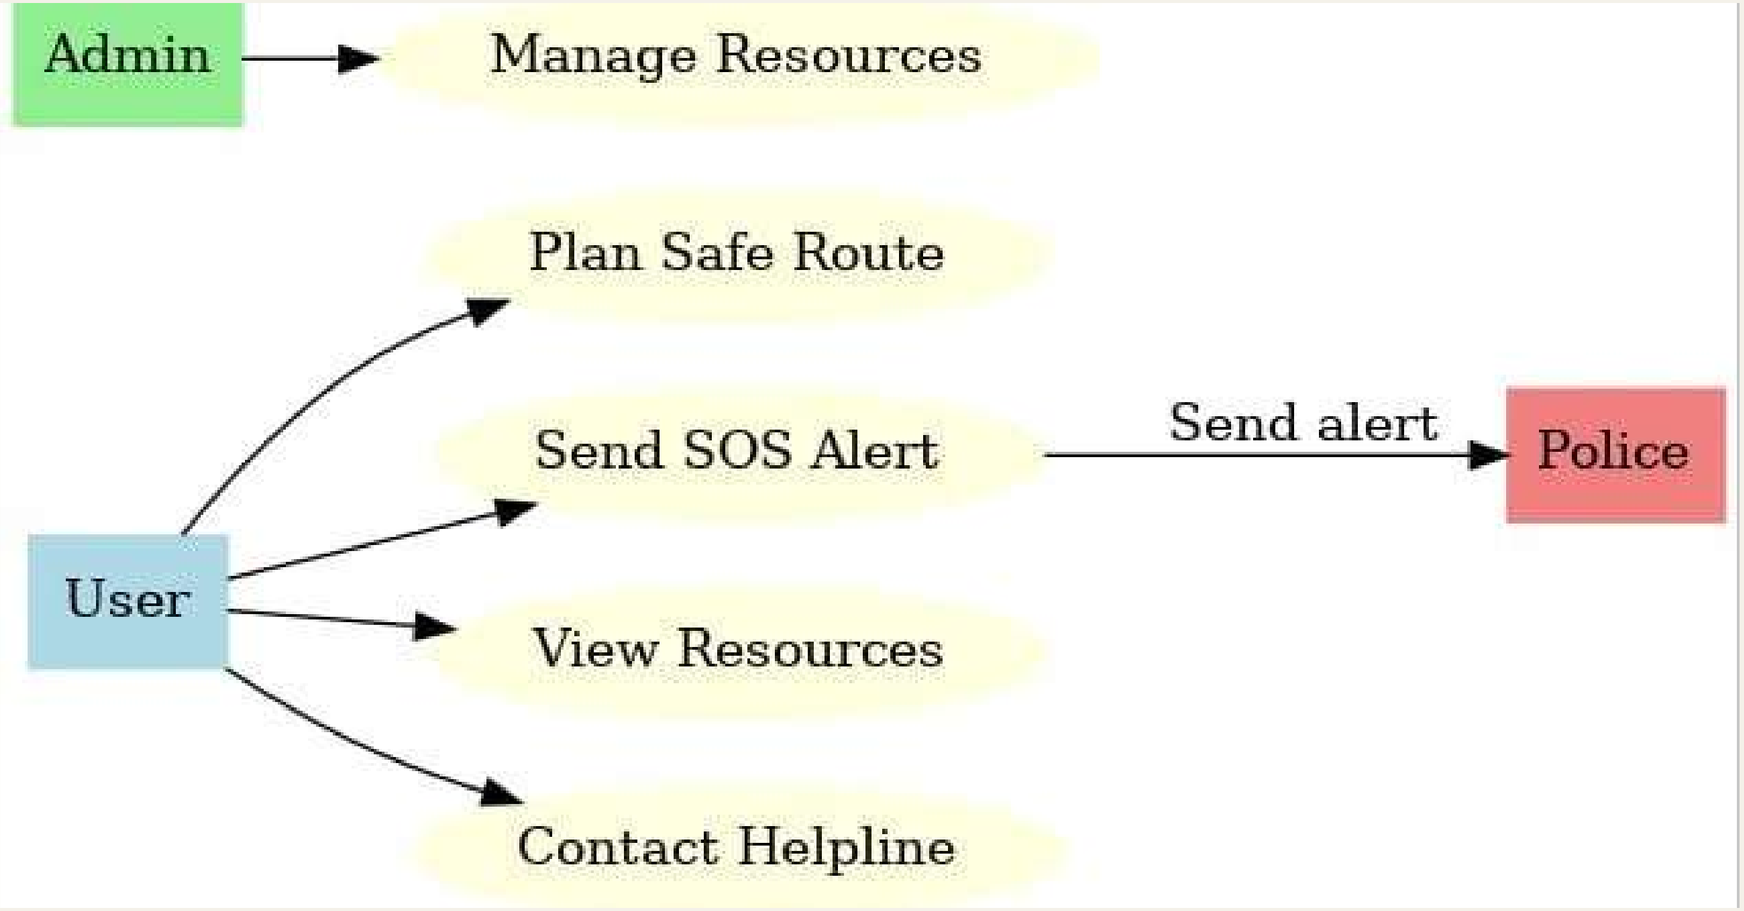
- Round the clock assitance throught helpline number
- Counseling sessions for emotinal well being and consult.

DESIGN -

- Data Flow Diagram



- Use Case Model



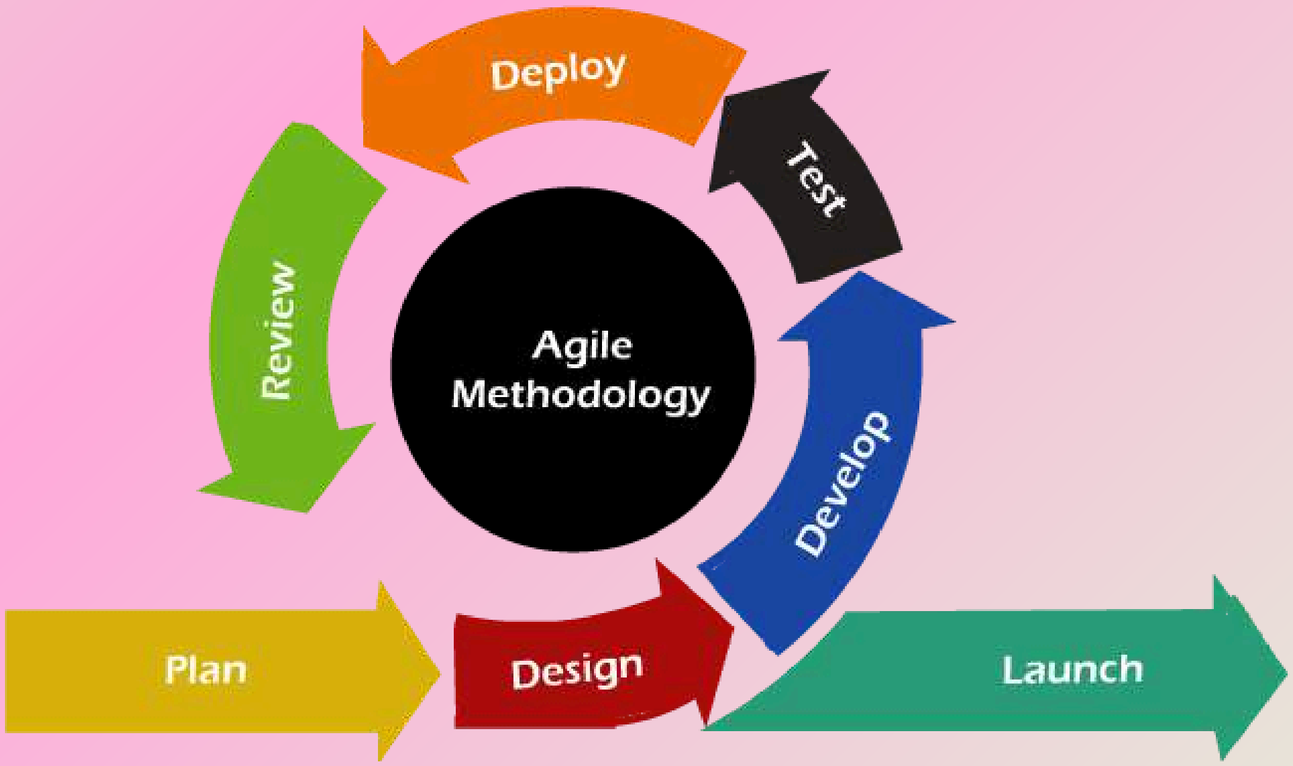
SOFTWARE MODEL -

Agile Model

- Prioritizes user feedback and evolving requirements.
- Allows for fast prototyping and iterative improvements.

***Practices Followed*:**

- Sprint planning and retrospectives
- Iterative module testing
- Continuous integration & improvement
- Regular feedback from mentors and users



SYSTEM REQUIREMENT -

- Hardware Requirement :

Mobile device (atleast Androide 13 and IOS 15) ,
GPS , server for data processing

- Software Requirement :

AI/ML models , geolocation service , voice recognition tools

TECHNOLOGY USED -

- Frontend : React.js
- Backend : Node.js
- Database : My SQL

Machine learning :
NLP to analyze input and pre trained models like BERG and GPT

FUTURE SCOPE

Planned Enhancements:

- Multilingual support for broader accessibility
- Enhanced AI predictions based on real-time data
- Offline SOS via SMS fallback
- Advanced encryption and privacy safeguards
- Global expansion for international relevance
- Smart wearables

IMPACT AND SIGNIFICANCE

- Safer and reduced risks for women.
- Expansion to mobile app for greater accessibility.
- Advanced AI model for improved safety prediction.

SHESAEF IS A STEP TOWARDS EMPOWERING WOMEN WITH TECHNOLOGY.

THANK YOU
